The fate of the proposed new charter, endorsed by the majority of city council and confirmed by a referendum document by Mayor James G. Woodward, is being decided by the voters of Atlanta today.

The polling places in the ten wards of the city opened at 7 o'clock this morning, to remain open until 8 p. m.

Mayor Woodward issued a statement urging every registered voter to go to the polls and cast his ballot. He said that the city was in a critical position, and that the voters had a duty to perform.

There is no doubt that the sentiment is overwhelmingly against the vicious and corrupt charter, but the voters will get a personal benefit from the new charter. Now it is up to them to vote.

A canvass of the polling places in the different wards today, involving the Clarke amendment, proposing a tax of 50 cents per bale on all cotton in cotton bales, where actual delivery was not made.

## 10-YEAR-OLD GIRL HELD BY JURY FOR BIGAMY

Charges Against Gussie Harmon of West Point—Other Bills Returned

A small bill charging bigamy was returned by the Fulton grand jury Wednesday against Miss Gussie Harmon, of West Point, that being her maiden name. She is eighteen years old. It was alleged to the jury that some months ago she married Jack Marshall, and knows in local theatrical circles, in Atlanta, shortly after she had been married in LaGrange to Charles W. Smith, a farmer of Trout county. She married her first husband in LaGrange, the young woman's first husband, she declared then that she would not go back with him and that she would not marry him under duress by her parents and that she did not love Marshall. She is now in jail with her parents in West Point, but must return to Atlanta to stand trial.

Another indictment charging bigamy was returned by the jury, this second bill being directed against Lottie Adams, a white woman. It is alleged that she married Miss Ida Mae Adams, of Fulton county, though at the time had a living wife.

A bill alleging assault and battery was returned against M. J. Jones, a lumber dealer. It is charged that Jones assaulted A. E. Arnold, of the law firm of Arnold & Donelson, as a result of a suit in which Mr. Arnold represented the Angel Lumber company against Jones.

Three bills charging murder were heard against two negroes, West Dabney and John Mathis, for the deaths of another negro, Tom Harris, whom they are alleged to have killed on September 2.

"No bills were returned in favor of West Dabney and John Mathis, who were charged with three counts drawn at the instance of Mrs. Elizabeth Hamilton, of South Carolina and Mr. McPherson, an alleged ally of the two negroes, who were charged with the murder of Mrs. Hamilton, who lives at the corner of South Main and McPherson avenue, in making the arrest, although she alleged that it was solely work, inasmuch as she had had trouble previously with West Dabney. Both have been discharged from the force since then, according to Chief of Police Beavers.

A number of other true bills were returned by the grand jury.

Another action was taken regarding bills against Burton Smith, Reuben Arnold and John Day, for a fight which they are alleged to have had with M. J. Butler and others in the county seat house some months ago. The grand jury from the jury was charged of bigamy made

Against Blacksmith John Strocker, aged 37, who was arrested at Fort McPherson, Georgia, on Monday morning, a grand jury division of 1-12 per cent, payable October 1, was declared.

The institution was shown to be in a financial condition with a healthy outlook for an exceptionally bright year.

## CLARK TAKES FLOOR IN DEFENSE OF DEMOCRATS

Speaker Quits Gavel to Resent Republican Attack on Caucus

WASHINGTON, Sept. 24.—Speaker Clark quit his gavel today to take the floor to defend the Democratic caucus against the Republican attack. This continual howl about the caucus is the most idiotic thing that has been said to heaven in the last generation, he shouted the speaker. "The caucus is a thing that has been said to heaven in the last generation. It does not care three whoppers how it did it. We have revised the tariff and put through a bill changing the banking and currency system. If these measures are not good, we will be the ones to suffer. If they are, we will gain, but we did not propose to let you Republicans bring up other subjects on the floor while they were under consideration and distract the attention of members and of the country from the great issues involved."

Speaker Clark said he would not answer Republican attacks by calling attention to the way former Speakers Reed and Cannon put through important legislation.

"That would be a case of the pot calling the kettle black," said he. "A lot of you fellows have been talking too much for your own good, anyhow, and you have not been able to get anything done."

Years teach much days never know. A business today is judged by what it knows. Should not thirty-eight years of keen observation and valuable experiments in the Southern Shoe business accumulate knowledge indispensable to the Southern Shoe Merchant?

## Boils Are a Bad Indication

No Time Should be Lost in

Many people believe hemorrhoids are a sign of poor health. It is a sign of sick blood. It is a sign of a weak body. It is a sign of a poor diet. It is a sign of a bad habit. It is a sign of a bad life. It is a sign of a bad death.

This remarkable remedy has the peculiar action of soaking through the intestine directly into the blood. In a few minutes

vein and tiny capillary. Every member of every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. compel the skin, liver, bowels, kidneys, bladder, to all work the one end of casting out every impurity, every pain-inflicting atom; it dislodges by irrigation the accumulations in the joints, causes a

accretions to dissolve, renders them neutral and scatters those peculiar formations in the skin that cause boils and other skin eruptions.

And best of all this remarkable remedy is welcome to the weakest stomach. In a very brief time S. S. S. has the constructive process so under control that remarkable changes are observed. Eruptive places heal, mysterious pains

aches have disappeared, and from now on to foot there is a conscious sensation of renewed health. That strange mood of morbid feeling of depression is lifted, the entire system responds with surprising energy.

You can get S. N. S. at any drug store. Beware of any effort to sell you something claimed to be "just as good." If you are a secular case and you desire ex-

advice, write to the Swift Express

## WAR HERE BEGAN WEDNESDAY A YEAR AGO

On Anniversary Date Chief Beavers Comments on Action in Closing Hours

Wednesday, September 24, marks the anniversary of the closing of Atlanta's restricted district. On this date a year ago Chief of Police James L. Beavers, without consulting any one, at the view of the report of the specially appointed commission, started the order demanding that every man be closed within the week.

In accordance with this order, that came as a bolt from the blue, the restricted district closed its doors, and, according to the chief, every door has remained closed ever since, nor will it open so long as he holds his office.

In commenting on the anniversary of the closing of Atlanta today in the Atlanta City in the United States.

"It is not one recognized disorderly house within the city limits," he said, "and disorderly houses have a reasonable decrease. The closing of these houses has been a wonderful success and the city has been greatly benefited."

"I am very much pleased with the action which I consider is well in hand. My plan has shown conclusively that it is possible to stamp out these houses, and they are closed for good and all."

"I do not believe that the people of Atlanta ever will submit to a return of the old conditions. No matter who is in charge, whether I am in office or some day there will be no more recognition of these houses."

Chief Beavers believes that there is a country-wide wave of sentiment against these houses, and that every house in the United States will be wiped out within five years.

## R. KENNETH DAWSON RETURNS TO ATLANTA

R. Kenneth Dawson, who went out to Portland, Ore., a little over a year ago and entered business there for himself, has returned his wife and son in Atlanta. Mrs. Dawson and their child returned to the south some months ago, to come to Atlanta to await him. Mr. Dawson remained in Portland until he had sold out his business with the firm. Mrs. Dawson was a Columbus girl and is well remembered here by many friends. Both are musicians of considerable attainment.

## Mrs. Lindsey Defends Her Criticism in Which She Said Atlanta Girls Drank

Civic League Secretary Declares That Prominent Atlanta Women Who Criticized Her Speech Are the Very Ones to Help Eradicate the Alleged Evils Among Atlanta Girls and Boys

Mrs. G. B. Lindsey, managing editor of the Golden Age and corresponding secretary of the Civic League of America, whose address before the Southern Citizenship Congress brought forth criticism from Atlanta club women, has given out an interview in defense of her declaration that many Atlanta girls are carried out of cafes and clubs in an intoxicated condition.

Mrs. Lindsey said in her latest statement: "I was clearly condemning the blighting course of the idle rich and the foolish poor, who should have high ideals and genuine high living, but who have not; who should not serve wine and gamble over their card tables, but who should dress in a modest and unassuming manner, but who do not."

## ROSY OUTLOOK FOR GEORGIA HUNTSMEN

Quail, Deer and Turkey More Plentiful Than Ever, Says Game Warden

That the quail turkey and deer hunting season will be better than it has been for a generation is the statement of James E. Mercer, state game and fish commissioner. Mr. Mercer declares that all game, but particularly the quail and turkey and deer, increased very rapidly this year.

For some reason the correct date of the open season have been misstated recently, says Mr. Mercer, and some newspapers of the state have printed these dates wrong. The dates have not been changed since last season, says he. Here they are:

August 1 to January 1, cat squirrel  
September 1 to April 2, migratory ducks.

November 20 to March 1, quail, doves, turkey gobblers and plover.

December 1 to May 1, snipe.  
December 1 to January 1, woodcock and wood duck.

Following are the bag limits imposed by law in Georgia: Quail, summer duck, woodcock, plover, twenty-five in one day; doves, snipe, forty in one day; deer (buck only), in one season, three; migratory quail, in one day, fifty.

Absolute protection has been given by the Georgia law for a period of years to fox squirrel, female deer, fawns, turkey hens, pheasants, grouse and all imported game birds and animals. The permission of the landowner must be secured before one can hunt or fish on the property of another.

Transportation of game is prohibited on all common carriers, unless it is in the possession of the licensed hunter who killed it. No game may be sold except by statutory order. License must be taken out before the hunter begins. It must be renewed on February 21 if the hunter continues after that date.

## IN LOCAL THEATERS

(Criticism of local performances in the local theaters is written by members of the Journal staff. All other matter appearing in this column is furnished by the theater management.)

**FOREVER—Vanderbilt.**  
**LYRIC—"The Confession."**  
**ROY—"Call of the Woods."**  
**GRAND—Klamath.**

Thursday night the Atlanta will be open again and from that time on the play house will be merry and in the limelight. Al G. Field will bring his minstrel Thursday night for a stay of three days with a matinee Saturday afternoon. These minstrels are this year something to be proud of if the words of the critics of the south count for aught. Everywhere the show is praised in the highest terms and is being given ovation after ovation. The show offers a number of new novelties this time and these are expected to do much toward making for its success. A number of new faces are offered, while many of the old favorites remain, such as Bert Swor and comedians of his class. Seats are now selling for the Atlanta engagement, including the matinee of Saturday.

The Forsyth is offering this week one of the most magnetic bills of vaudeville seen in Atlanta for some time. Dainty little Bessie Wynn, the little lady who walks right over the footlights and into your hearts, is paying her annual visit, and her charming and graceful, combined with a wardrobe that the feminine part of the audience go into raptures over, is certainly most heartily welcomed that ever awaits her here.

Hermine Shone and company present "The Last Hope," which proves that melodrama is entirely acceptable on the Vanderbilt stage.

The Avon Comedy Four offer some good comedy and singing, and Mabelle Foster and Clifton Anthony have something new in the piano playing and singing act. Richards, in the "Act Beautiful," offers some very good racy dancing, and Newwood and Newwood also offer some good singing.

The fifth week of the Jewell Kelley company promises to be one of the most successful of the season, as the play which is being offered this week, "The Call of the Woods," is unusual in its story of the Canadian forest, full of good comedy, in which Edith Kallie and Earl Higley are making splendid hits, and strong dramatic effects which hold the audience interested, and with scenic effects which are quite pretentious. Jewell Kelley, as Dave, the big-hearted Canadian woodsman, fills the role well, and Mrs. Black, as Lilla, the Canadian girl, is also to the fore.

The more title of this week's attraction at the Lyric is sufficient to cause unusual interest—"The Confession," which is being offered at the Carnegie War theater. As the title would suggest, the story of the play has for its theme the heroic figure of a Catholic priest, who, despite great pressure exerted against him by society and by the law, refuses to divulge certain secrets which have come to him through the confessional. It points to one of the strongest articles of the Catholic faith, and affords opportunity for splendid dramatic effect.

## ATLANTA BANK DIVIDEND TO BE PAID IN NOVEMBER

Fifth Dividend of Defunct Bank Will Be 10 Per Cent of Sum Unpaid

A dividend of approximately \$70,000, or about 10 per cent of the balance due the depositors of the defunct bank, will be paid some time in November.

The dividend will not be 10 per cent of the balance of the indebtedness of the bank, as erroneously reported, but only 10 per cent of the sum unpaid. It is estimated that the sum unpaid is \$700,000, and 10 per cent of that will be paid in November.

A few days ago Judge Pendleton, of the superior court, asked counsel of the members of the bank to prepare a statement of the condition of the bank.

The judge then said that he would make an order in October for the payment of the dividend in November. After this dividend is paid, there will still be due \$670,000 to the depositors, of whom there were 2,800 when the bank suspended in the fall of 1907.

Elaborate plans for the entertainment of the Atlantians have been made by the hosts, who have not forgotten the fact that they were the guests of the local club. An automobile tour around the city, a luncheon and a banquet are planned.

## MEAT PROBE CONTINUES ON TUESDAY NEXT WEEK

Five Dealers Accused of Selling Decayed Meats Will Be Arraigned Then

On Tuesday there will be another pure food hearing before Commissioner of Agriculture Price, and some five offenders against the laws will be on the carpet for a preliminary hearing. They are charged by the state inspectors with selling spoiled or unwholesome meats. One of them is a negro who conducts a meat market in Montezuma. The others are Savannah market men.

"The inspectors had to throw all the meat out of that negro's refrigerator some time ago," said Mr. Price, Wednesday. "Yesterday they went there again and found the refrigerator full of rotten meat once more. Now we're going to put the law to him. We don't mind warning folks once and giving them a chance to get right with the law, but we are not going to stand for deliberate violation by anybody, white or black."

The commissioner said that one of his friends prodded him in a letter the other day with the charge that he was doing all of this good work for pure foods in the big cities and was neglecting the small towns.

"I told him we are getting around as fast as we can," said Mr. Price. "Our force of inspectors is mighty limited, for the field we have to cover. We are going to make the whole round and get things in good shape before we even slow down. This office is a state office and it doesn't work in one county and one town."

The increased rental which office building owners receive because of the elevator service they maintain, says the court of appeals, is the equivalent of fare which other common carriers charge of their passengers.

ALL PUBLIC ELEVATORS ARE COMMON CARRIERS

That elevators in public buildings are common carriers and therefore are required to exercise the same extraordinary diligence in care of passengers as railroads are required to use, is the decision of the state court of appeals upon a case from Savannah.

The judge granted the defendant's motion for a new trial on the ground that the verdict was excessive.

The judge's charge was that the company's elevators, and used in the city court of appeals for damages.

The judge granted the defendant's motion for a new trial on the ground that the verdict was excessive.

The court of appeals upholds the judge's charge that the great increase in the rental which office building owners receive because of the elevator service they maintain, says the court of appeals, is the equivalent of fare which other common carriers charge of their passengers.

## OUR ASTROLOGER

"The stars within, but do not compel."

## HOROSCOPE

WEDNESDAY, SEPT. 24, 1913.

Light in the Sun  
From Far Away.

Astrologers find this day in which the planets are so expected that there is no powerful away. While Jupiter exercises unfriendly influence early in the morning, there is no special guidance during business hours, except from Saturn, the planet which so often holds ill for the affairs of men. On this date, however, Saturn is in a position held to be fortunate.  
The configuration is believed to be especially favorable for all who devote to the earth. Miners, agriculturists and builders should benefit from conditions which are unusually propitious. There is a sign which promises success for organization. New corporations are under an auspicious government. Saturn is in a place tending to encourage stability and consecutive action. The day is auspicious for dealing with all the forms of nature. Engineering, metallurgy and chemistry offer fair promise of success for those who study the sciences.  
The aspect favors the attainment of positions of trust and responsibility. Those who begin new enterprises under the conditions prevailing today have the hazard of generous returns after rather slow progress.  
There is an indication of earthquakes and violent storms. Those who travel by sea are warned against accidents.

## Inter Sa Club Entertained

Miss Charles McClain was hostess of a dancing party Tuesday evening, in compliment to the members of the Inter Sa Club.  
The guests were Miss Minnie Wood, Miss Ruth Bass, Miss Lela Carroll, Miss Theodora Andrews, Miss Mary Anderson, Miss Claire Bonni, Miss Sadie Bell, Miss Virginia Starnard, Miss Leone McClain, Mr. Harry Morris, Mr. Howard Smith, Mr. Gordon Freeman, Mr. Archie Freeman, Mr. Mercer Lee, Mr. Ernest Allen, Mr. Cliff Brown, Mr. Bob Ledbetter, Mr. Verne Withers, Mr. Clyde Withers, Mr. Forrester Carroll and Mr. and Mrs. L. R. Root.

## To Sunday School Class

Mr. W. J. Lounsbury entertained his Sunday school class of the First Methodist church Tuesday evening in the banquet hall of the Hotel Audley.  
Covers were laid for seventy-five. Several delightful talks were made by the various members of the class.

A Little Editorial in Which We Acquaint the Public---Our Friends, With a Few Facts About

## The New Store

## Store Policy and Service Simply Told

Voltaire spoke of those who "employ speech only to conceal their thoughts." There are enough plain, brief words in common use to describe anything, provided the speaker understands his subject.

There is nothing you should not, or may not, know about our methods of store keeping, and we will eliminate all commercial technique and tell you in plain, simple words something about the store, its policy, its service, its equipment; a subject which we believe we know thoroughly.

## The Store Is New

It is notable for almost every kind of newness.

It is new in vastness.  
It is new in construction.  
It is new in safeties.  
It is new in conveniences.  
It is new in sanitation.  
It is new in ventilation.  
It is new in hospitalities.  
It is new in methods.  
It is new in advantages.  
It is new in assortments.  
It is new in daily changes.

And it takes care to do its work full well, that it may stand high by what it does, as well as by its great, new building.

## The Higher a Man's Ideals

—or the broader the man's pattern, the more will he have it in his power to gain success.

If he is little and narrow and reasons things downward, he is likely to find himself on swampy ground.

Always reason up if you wish to reach the higher levels of vision and strength. If we had reasoned down and built this store to our own private convenience, and if we served the public the way it was easiest for us, we could never have been anything more than "one of the downtown shops."

The building is now just what we would have it. It is so because in planning it we thought of what it ought to be for the public.

A place where we can operate in a broad way—a mutually beneficial way—our principles of store keeping.

## The Principles of a Few Decades Ago

Do you remember the old-time baseball playing?—when the pitcher met the batter's request for high or low ball?

The old-time store asked for favors!—and the old-time merchant had scunter standing in the community. Did he serve as stores serve now?

Would you be willing to go back to the standards of store service that prevailed when the principle that ruled the world of business was—"let the buyer beware?"

When a merchant quoted a price he made it high enough to stand almost unlimited whittling, and yet be profitable—to him. When he spoke of quality, his fingers were crossed; you were not expected to believe him, unless you wanted to very badly.

Buying was a haggle—unless you were a hardened haggler, you came out second best in every deal. There was no confidence between buyer and seller.

## The Foundation of Business Is Confidence

We do not lock our confidence in the safe. We deposit it in turn with the wholesaler, who passes it on to the manufacturer. And the manufacturer, to make the circle complete, must give confidence to the consumer.

Business, once an aggregation of deals, with us has become the living embodiment of ideals.

It is absolutely necessary for us to enjoy the confidence of our customers.

We know this, and we are doing everything that is humanly possible to gain your confidence.

We sell no goods that are not absolutely dependable.

We stand back of everything we sell, and our interest in the matter does not end until the sale is perfectly satisfactory to you.

This is a fixed policy of our business: First, because it is right; and secondly, because it pays—for you and for us.

In other words, the principle of utmost value-giving against the old method of getting all one could in the way of profits.

## Good Merchandise—Its Relation to This Store

Emerson says the true test of government is the kind of men it produces. We say the true test of a store is the kind of merchandise it affords.

There is no royal road to perfect store keeping; neither luck nor accident can bring it to pass.

Let it only be proven to the people that your goods are right and the savings real, and the rest will take care of itself.

Money talks; so does merit in merchandise.

The merchandise we have sold in the past has been talking for us; the money that people have saved on special values we have afforded them has been talking for us. We do not hope to talk more convincingly.

It is hardly possible that any other store could have learned, better than we, how good merchandise, fairly priced, can make business grow.

We are frank to say we have learned this to our profit.

For it is the merchandise which we have sold in the past that changed the little three-story building into one of the greatest stores in the South. It must have been pretty good, to say the least of it.

And in the future we are going to do all we can to impress you with the merchandise merits and the business ideals that have made the new store possible.

## Service---The Study Of People's Wants

This store is built upon pre-conceived models. Years of effort and patient endeavor have proved a system of public service in collecting and distributing the best of merchandise. The organization has passed its time of stiffness and hard movement, and today it is well poised in the strength, power and smoothness of motion to do good service to the general public.

We want you to come and get your share of the benefits the new store affords.

## POULTRY, PIGEONS AND LIVE STOCK

## The Next Contest

THE pens have practically all been filled for sometime. We can accommodate one more pen each of Buff Leghorns, Blue Leghorns, R. C. White Leghorns, Campbells, and Partridge Wyandottes. We will have pens from all parts of Missouri, the United States, Vancouver Island, Canada, and England, and we are importing three pens from the New Zealand and Australian continents who have been making such wonderful records in the contests of those countries. We expect to see if their birds will make as good or better records here than our own American birds. The records of these from these several countries will be watched with unusual interest. We believe the American birds, which have been properly bred, will be able to hold their own with the best from any country. The last few years many breeders have been paying close attention to selection and breeding for egg production and we expect to see the American bird and the Missouri hen hold their own. The issue which will be in the next contest will certainly be the world's champion. The last few years many breeders have been paying close attention to selection and breeding for egg production and we expect to see the American bird and the Missouri hen hold their own. The issue which will be in the next contest will certainly be the world's champion.

THE FEEDING TEST, PEN NO. 69. This pen has laid 544 eggs less than the leading pen in the feeding test which is fed according to the Missouri Experiment station method. Missouri farmers can see all these feeds or can easily see a few. This method is as follows: Equal parts bran, shorts and corn meal in hopper.

In winter months feed two-thirds corn, one-third wheat in litter. In summer months feed one-third corn and two-thirds wheat. Grind and shell.

Give battery instead of water, twice each week. As this pen has laid 212 eggs less in nine and one-half months than the leading pen in the feeding test, it seems that we should not be justified in continuing ourselves with so simple a ration, and it also indicates that it might pay to proportion and compound it differently.

During the past two weeks there have been held, under the auspices of the Missouri Poultry Experiment Station, a series of nine poultry contests, each in a different section of the state. A total of forty-two thousand people attended these meetings, making them by far the largest and most successful series of poultry meetings ever held in the state.

Each day's program consisted of a band concert and a big picnic dinner at noon in some grove or park. In the same grove or park there were illustrated lectures and demonstrations. In the afternoon, also an exhibit of the best brood and eggs. Prizes were offered for the best pen of the various breeds, hatched in 1913, also for the best brown and white eggs.

The evening program was usually held in some moving picture theater, where two reels of very fine moving pictures were used to illustrate a lecture on "The Care and Management of the Farm Poultry."

A sample day's program is as follows: Lecture "Selecting Pure Bred Poultry for Breeding or Exhibition Purposes," Judge E. C. Branch (illustrated with specimens of the various breeds on exhibition).

Lecture "The Farmer's Poultry Poultry Business," Ralph H. Seale, Jr., director, Missouri Poultry Experiment Station, illustrated with charts showing the principles of poultry house construction, and details of the house which is giving best results at the Missouri Poultry Bureau.

Lecture "Improving the Farm Egg," Prof. P. S. Jacoby, Bureau of Chatter, U. S. Dept. of Agriculture, illustrated with charts showing the principles of poultry house construction, and details of the house which is giving best results at the Missouri Poultry Bureau.

Lecture "Artificial Incubation and Brooding," Reese V. Hicks, ex-president American Poultry Association.

Lecture "The Future of the Pure Bred Poultry Business," G. C. McCarty, business manager, American Poultry Association.

Lecture "Common Poultry Diseases, Their Prevention and Cure," Dr. C. C. Patterson, pathologist, Missouri Poultry Experiment Station.

Lecture "What's a Capon, and Why?" George Byrre, Cedarvale, Kan. (The Capon King.) (During this lecture from six to a dozen cockerens were castrated.)

Lecture (evening) "Care and Management of the Farm Poultry," T. E. Leach, director, Missouri Poultry Experiment Station, illustrated with two reels of moving pictures.

The afternoon lectures will all bring to the point—"An hour and a half lecture, followed by twenty minutes of speaker, applied put it. One of the noticeable features of all the meetings was the marked attention given by the audience, people of all ages, to the moving pictures shown throughout the entire afternoon sessions of two or three hours.

Meetings were held at the following towns: Pacific, Centralia, Marengo, Orrick, Nevada, Neosho, West Plains, Mountain Grove, and Greenville. At each place they were held under the auspices of the Missouri Poultry Experiment Station, the local commercial, and the local poultry association.

Understand as an experiment, these meetings have proven so successful and have created so much poultry enthusiasm in each community in which they have been held, that they will become a regular feature of the poultry work in Missouri each summer. (If in Missouri, why not in other states?)
